Best FARMING SYSTEMS™

TM Agricultural

Our flagship product is used to stimulate strains of beneficial microbes in the soil that have become dormant. The result: softer, more mellow soil which translates into higher organic matter, better water retention, improved percolation and increased yields.

PH Adjuster

Used to help balance the pH in the soil. Helps mobilize heavy metals. The result: Proven increased crop yields, by unlocking nutrients due to salinity issues.

Seed Germination

Apply during seeding or up to 120 days prior. Results in early emergence and more even crop growth.

Herk Foliar Fertilizers

Scientifically proven to be the fastest way to get essential nutrients into a plant! Our HERK MAXXX crop specific foliar blends will give your crop the muscle it needs to compensate from soil deficiencies, with our full package of high quality chelated micro nutrients and trace elements. Increase yield potential and put bushels in your bins.

CO-OP AGRO WETASKIWIN

AGI WESTFIELD

STX2 SERIES STRAIGHT AUGERS

Westfield's STX2 truck auger has been redesigned with farmers in mind. It has been built for durability, engineered for high capacity and designed for ease of use. The STX2 will help you get the job done fast and will last for years to come.

For all your Agro needs contact Ron or Chris 780-352-3359

STANDARD FEATURES:

- Wear Edge Technology
- Shielded intake for safety
- Safety winch with automatic brake, sized and geared to match auger.

OPTIONAL HD MOVER KIT:

The optional self-propelled, heavy-duty mover kit features four-wheel steering and rugged all terrain tires. The controls and steering are conveniently mounted to the side for easy access. The heavy-duty mover kit maneuvers the auger over rough terrain with ease using the manual or hydraulic joystick steering. A standard mover kit is also available.

WESTFIELD STX2 10X41 AUGER

Complete with 4-wheel hydraulic steer mover kit, 37.5 HP EFI Vanguard motor, electric clutch, gas tank, reversing gearbox and light kit.

$19,000

WESTFIELD STX2 10X51 AUGER

Complete with 4-wheel hydraulic steer mover kit, 37.5 HP EFI Vanguard motor, electric clutch, gas tank, reversing gearbox and light kit.

$21,000

LASER PRECISION CONCRETE

When it comes to concrete floors and aprons, it is important to choose a contractor who can deliver the quality place and finish on a floor that clients expect and demand.

CIA has invested in equipment that has integrated laser technology for accurate pad preparations and concrete placement. Our Hitch Doc Duel Dozer box grader with integrated laser receivers ensures a uniform sub grade by eliminating high and low spots in the floor, producing more uniform concrete and a stronger floor.

Our Somoro CopperHead® XD™ 2.0 laser screed places the concrete with extreme speed and accuracy by setting the grade automatically. In a single pass we cut your concrete to a finished grade, screed it flat, and vibrate it perfectly smooth.

CIA trowels the floors with a ride-on power trowel. This gives us the capacity to finish up to 20,000 square feet of floor in a single day. The ride-on trowel also gives us the versatility to polish a floor to any desired finish.
