January 16–18, 2018
9 AM to 5 PM Daily
Keystone Centre
Brandon, MB.

The Year of the Young Farmer

Visit us at agdays.com | @MBAgDays | #agdays18 | facebook.com/MBAgDays
Manitoba Ag Days is an agricultural trade show held in mid-January each year at the Keystone Centre in Brandon, Manitoba, Canada. This is Canada’s largest indoor farm show that is “100% Pure Farm” meaning our exhibits are required to be of an agriculture nature so you won’t find household products or such. Farm business is the focus so you’ll find the newest technology and information on equipment, crop production, and farm management just to name a few. With over 550 exhibitors you can be sure if it’s anything to do with agriculture you’ll find it here. The Keystone Centre complex is the host venue and covers 12 acres of indoor space with Ag Days using every square inch of the building. Admission is free and no pre-registration is necessary.

YOU DON’T WANT TO MISS OUT ON THIS YEARS FABULOUS LINE UP!

Manitoba Ag Days Welcomes U.S. Visitors

SEMINARS

As the dynamic of agriculture continually changes our need for education and information is more important than ever. With two seminar theatres running simultaneously and sixty-plus speakers presenting, there are plenty of great topics to satisfy your need for knowledge. Be sure to visit www.agdays.com and view the full slate of expert speakers we have lined up for the 2018 program. Here’s a sampling of some of the great speakers you’ll see.

MARKET OUTLOOK SPEAKERS:
• Dustin Gabor from GrainShark
• Brian Voth from IntelliFarm
• Errol Anderson from ProMarket Communications Inc.
• Craig Klemmer from Farm Credit Canada
• Sandy Russell from Spring Creek Consulting

AGRONOMY FOCUSED PRESENTATIONS:
High Yields – What is Possible & What is Not
Dr. Rigas Karamanos, Senior Agronomist, Koch Fertilizer Canada, ULC
Pushing the Crops Genetic Potential — Agronomic Practices to Make it Pay
Janett Chambers, President, ATP Nutrition
100 Bushel Canola Yield – Little Things Matter!
Florian Hagmann, Farmer, Birch Hills, SK
Big Yields Mean Big Nutrient Consumption
John Heard, Crop Nutrition Specialist, Manitoba Agriculture

ENTERTAINMENT:
• Cody Creelman (Yes the vet from YouTube) will also be joining us on Wednesday Afternoon!

Other speakers will address – Agronomy, Managing Risk, Livestock, Market Trends, Organic Crop Production, Technology and Innovation!
Inventor’s Showcase is always a favourite and once again this year we have a great variety of inventions to peak your interest. Sometimes the inventor is a large manufacturer but most often it’s a farmer or small local company. We have 15 entries into this year Inventor’s Showcase! There have been many examples of successful products that had their start at Ag Days or a similar show. Inventions are judged at Ag Days with the top two receiving prizes.

**INVENTOR’S SHOWCASE 2017 WINNERS:**

1st Place – Arnold Innovations: Combine Cylinder Reverser
2nd Place – Devloo: Canola Crusher

The frequency of grain entrapments is growing nationally. CASA wants to do something about it. CASA has developed a Grain Safety Program. The heart of this program includes building a mobile demonstration unit which can function as both a grain entrapment demonstration unit and a rescue training unit. And we are going to have this mobile unit at our show!

The mobile unit will serve three purposes:

**RESCUE TRAINING**

The unit will be used to train first responders in grain extrication procedures.

**GENERAL PREVENTION EDUCATION**

The unit will be used as a learning tool to sensitize public audiences about the dangers of grain entrapment, and the importance of lock-out/tag out procedures.

**ON-SITE TRAINING**

The unit will be used to provide in-depth prevention and emergency plan training to workplaces.

Grain entrapments occur when:

- An individual is present on the surface grain, which is being drawn out from beneath the individual;
- An individual attempts to walk across the surface of grain where a void exists beneath the surface; and
- An individual is in a grain storage facility where grain has solidified onto the walls of the bin and then the wall of grain collapses onto the individual.

In 2015 alone, seven people died in Canada after being entrapped in grain. Four were children. However, there is hope. In February 2015, first responders saved the life of one Canadian trapped in grain. The first responders had received grain rescue training months earlier.

CASA wants to bring more grain safety education and training to rural communities.

**NEW PRODUCTS 2017 WINNER:**

1st Place – SeedMaster for their Tunable Tower
Honorable Mention – Eastwood Products for their Heavy Equipment Jack

If you’re involved with cattle and looking to find some of the best genetics in Canada then you need to attend Bull Congress in @Bull11 @MBAgDays. Bulls are displayed similar to the many other products displayed at Ag Days allowing patrons the ability to see the animals up close. Producers interested in breeding stock have a chance to talk to the exhibitors about their herd genetics and do a little comparing as well.

We look forward to partnering with CASA to showcase the Grain Entrapment Trailer at Manitoba Ag Days!

**FEATURE BOOTH FOR 2018:**

**CASA’S GRAIN ENTRAPMENT TRAILER**

We are part of a new national fundraising campaign to prevent kids and adults from dying in grain and we want to train you how to save someone’s life!

The frequency of grain entrapments is growing nationally. CASA wants to do something about it. CASA has developed a Grain Safety Program. The heart of this program includes building a mobile demonstration unit which can function as both a grain entrapment demonstration unit and a rescue training unit. And we are going to have this mobile unit at our show!

**NEW PRODUCTS**

At Manitoba Ag Days you’ll always find the latest in technology and equipment with many new products that have just entered the market place which have never been seen before. Be sure to check out the exhibitors that have highlighted New Products for the 2018 show. They can be found by their signage identifying them at the show as well as the listing on our website www.agdays.com.
