

PUBLICATION DATE - APRIL 4, 2019

Making crop choices for 2019 and beyond?

The Western Producer's Yield Saskatchewan provides growers with the power to decide.

A complete guide to the previous five year's performances of the crop varieties grown in the province, presented to the farmer in a crop zone by crop zone format.

Growers, are you thinking of adding a crop type and wondering if it is insurable, or a good idea for this year, or next? Making a plan to inspect some growers' plots or attending a field day this summer? Be informed when you get there by knowing the latest genetics that are in the field and how they have been performing on other producers' farms in your area.

Yield Saskatchewan provides complete yield data and crop insurance coverage maps, among other information products that will help you make your planting decisions.

Look for the 2019 guide in the April 4th edition of your Western Producer.
