The Western Canola and Pulse Crops Producer is dedicated to crops that are made-in-Canada success stories. Canola's rise to prominence is well known and this Cinderella crop will rise even further with its demand as a healthy edible oil and a biodiesel feed-stock. Today, pulse crops — peas, lentils, chickpeas and dry beans — are enjoying a similar ride. Canola and pulses are the hot crops in Western Canada and farmers will turn to this supplement for information, equipment and suppliers.
