Ask Us About Fullblood Akaushi Bulls Or Fullblood Semen For The 2025 Breeding Season

Fullblood Bulls - Semen - Embryos

We can deliver to your farm or ranch

- HIGH FERTILITY
- EXTREME MARBLING
- OVER 60% OF AKAUSHI (RED WAGYU) F-1 GRADE PRIME
- MOST HEAT TOLERANT BEEF BREED
- DAILY GAINS EQUAL TO TRADITIONAL BEEF BREEDS

Akaushi is a specific Wagyu cattle breed, separate and distinct from other cattle breeds. Wagyu is known around the world for its unbelievable taste, texture, and tenderness. Akaushi takes you to the next level.

Akaushi are one of the few breeds that naturally deposit fat intramuscularly. The distribution of marbling in Akaushi beef -improves tenderness and flavor intensity.

WELCOME TO THE FARM SHOW

A WESTERN PRODUCER DOCUMENTARY SERIES

EPISODE 2: License to Drive *Watch it now!*

Start your engines, folks. Get ready to see the largest collection of farm machinery in Western Canada, operating in the field with models test-driven by visitors.

This is Ag in Motion and it's a gearhead heaven: from small-task compact loaders to today's largest sprayers that operate in an environment that has room for the boom.

Jump into the cab with us to see why farmers can't wait to get their mitts on the shiniest, newest equipment at this annual Saskatchewan outdoor farm show.

DOUBLE A TRAILERS WATER CANNONS

- **Pump Early, Seed More:** Clear sloughs early to maximize seeding and harvesting potential.
- **Boost Yields & Reduce Costs:** Expand acreage, reduce wear on equipment, and rejuvenate saline soils.
- **Protect Your Crops:** Pump up to 2000 GPM to dry fields faster and prevent plant drowning during flash rains.

Pump your slough dry in record breaking time. Move up to 2000 GPM covering 4-6 acres.

WATER CANNONS
Designed for Farmers, By Farmers

FEATURING

- High-Pressure Irrigation & Hydraulic Priming Pumps
- Hydraulic Side Boom & High Flotation Tires
- Pressure Relief Safety Valve on Priming System

Quality Build. Quality People.

Grain Handling Equipment

Neeralta.com

Make Grain Bagging Great Again

Emptying a grain bag used to be difficult. Owning a Neeralta Extractor means:

- One clean plastic bale, no more re-rolling.
- End of bag clean up is as little as two bushels.
- Saving time with a single operator.
- Industry's fastest grain loading.
- Operating from the comfort of your tractor.

Farm Faster®
